**** STAFF REPORT ****

PROJECT DESCRIPTION

This is a request for a Variance to allow a 10-foot front yard setback where 20 feet is required and to allow a five-foot rear yard setback where 20 feet is required for a proposed 40-unit Senior Citizen Apartment development on 4.72 acres adjacent to the north side of Silver Sky Drive, approximately 500 feet east of Roland Wiley Drive. This Variance request for a reduction of minimum setback requirements is the result of a self-imposed financial hardship that could have been alleviated through adherence to the existing approvals on the site; therefore, staff recommends denial of the request. If denied, the proposed Senior Citizen Apartment development could not be built on the subject site, and the site would remain as an undeveloped parcel until a subsequent application is submitted for development.

ISSUES

- This Variance is a direct result of the proposed subdivision of the subject site into two parcels for financial reasons, as stated in the applicant's justification letter. Because this request is the direct result of a self-imposed financial hardship, staff recommends denial.
- Approval of this variance is required for approval of the related Site Development Plan Review (SDR-35554).
- If approved, the previous Site Development Plan Review (SDR-33010) and Variance (VAR-33012) approvals will be expunged.

ANALYSIS

The proposed Variance is to allow a 10-foot front yard setback where 20 feet is required and to allow a five-foot rear yard setback where 20 feet is required for a proposed 40-unit Senior Citizen Apartment development (the subject of a related item, SDR-35554) on 4.72 acres adjacent to the north side of Silver Sky Drive, approximately 500 feet east of Roland Wiley Drive. Although the applicant refers to the odd shape and topography of the subject site as justification for this request, this Variance is a direct result of the proposed subdivision of the subject site into two parcels for financial reasons, as stated in the applicant's justification letter. Because this request is the direct result of a self-imposed financial hardship and not the physical properties of the site, staff recommends denial.

FINDINGS

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature.

Additionally, Title 19.18.070L states:

“Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.”

No evidence of a unique or extraordinary circumstance has been presented. The applicant states in its justification letter that the proposed subdivision of the existing lot is solely for financial purposes, resulting in the need for this Variance request. Adherence to the previously approved Site Development Plan Review (SDR-33010) and Variance (VAR-33012) would allow conformance to the Title 19 requirements. In view of the absence of any hardships imposed by the site’s physical characteristics, it is concluded that the applicant’s hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.
